9GT type

Wide Temperature Range Fan DC

These fans achieve an operating temperature range of -40°C to +85°C. They operate in a wide temperature range, serving in various applications where conventional fans could not be used.
They are suitable for refrigerators and freezers, lighting devices, communications devices, PV inverters, and rapid EV charging stations.

40mm sq. to 120mm sq.
⇒pp. 359 to 370

9AD type

ACDC Fan AC

This fan operates by internally converting AC power into DC power.
It provides the superior performance of a DC fan with the flexibility of AC input.

92×92×38mm
⇒pp. 413 to 416

120×120×38mm
⇒pp. 417 to 420

9RF type

Reversible Flow Fan DC

Multiple fans are usually used to blow air in both directions to ventilate houses, and to cool drink vending machines, and food display cases.
With reversible flow fans, the wind direction can be switched so fewer fans are required.

φ136×28mm

Вентиляторы Jamicon - дилерские поставки **переменного и**	JAMICON

постоянного тока (AC и DC) **Серии KF, JF, JA, KA, MA**	

Линейка производителя Jamicon представлена в нашем каталоге вентиляторами промышленной частоты, постоянного и переменного тока, любых типоразмеров и параметров производительности и скорости вращения. Серии, которые мы предлагаем, отличаются также типами корпусов, формой и количеством лопастей рабочих колес и спиц, поддерживающих в кольцевом канале двигатель с вентилятором.

- DC постоянного тока. В серии KF вы можете купить вентиляторы 25x25x10 мм до 50x50x15 мм, в серии JF – 60x60x15 мм до 80x80x25 мм. Корпусы и лопасти рабочих колес изготавливаются из прочного пластика.
- AC переменного тока. В сериях JA, KA, MA представлены различные по производительности, установочным габаритам и стоимости вентиляторы 80x80x25 до 254x254x89 – соответственно с разными формами монтажных плат и количеством лопастей. Корпусы изготавливаются из прочного пластика с алюминиевым покрытием, лопасти рабочих колес – из термопластика.При покупке вентиляторов обратите внимание, что производитель разработал широкий размерный диапазон, позволяющий максимально обеспечить работу большинства приложений, применяемых в аудио-оборудовании и компьютерной технике, устройствах автоматизации, контроля и т. д. Можно выбрать спецификации для оптимизации под конкретные параметры, например, объемы потока воздуха и степень шумности при интенсивной работе. Все серии выполнены в пластиковых корпусах, оснащены легковесными крыльчатками и высокоэффективными электродвигателями. Цена вентиляторов зависит от серии, типоразмера, производительности, а также от количества выбранных моделей для формирования оптовой партии.

Условия и особенности формирования заказов, ценообразования и доставки вентиляторов в каждом конкретном случае могут различаться и поэтому, наряду с техническими характеристиками, обсуждаются с нашими менеджерами. Вся продукция есть на складе, сертифицирована, компания-производитель дает гарантию долгосрочной эксплуатации на представленные модели.

Note：The part numbering for the replacement models includes all variations of the standard listings below, including -000U-, -G99, etc to indicate options and features such as design location, 3rd wire options, etc. A complete listing of options is available from your Sunon contact or representative.

Part I

The following recommended replacement models

The last buy orders for OLD MODEL must be placed before 12/31/2011

The last buy orders for OLD MODEL must be shipped before 3/31/2012
